

Welcome to the first 25 years of the St. Mary Central High School Athletic Hall of Fame. Few institutions have had the rich athletic history and tradition of this small Catholic high school in Menasha, Wisconsin. This booklet remembers these past Hall of Fame inductees and their team and individual achievements. But in a larger sense, this booklet commemorates all of the Zephyr players, coaches, teachers, and fans of the past 70 years. It is through their effort also that the following have been honored.

Where did the team nickname—Zephyrs come from? In 1934 the Burlington Railroad introduced the Pioneer Zephyr—America's first diesel-powered streamline passenger train. On May 26, 1934, the Burlington Zephyr staged a 1,000 mile record breaking non-stop run from Denver, Colorado to the World's Fair on Chicago's lake front to climax the "Wings of a Century" transportation pageant. The train streaked across the Midwest at speeds over 100 mph. Total fuel cost for the trip was \$14.64. Through the efforts of the St. Mary's coach in the '30's who traveled on the Zephyr and the St. Mary's administration, the school adopted that fitting nickname.
